

Commercial RDC

Benefits

- Deliver sophisticated remote deposit capture technology that fits the needs of your business customers
- Choose a deployment option that is right for you - in-house licensed software or our NDpro ASP service
- Build revenue-generating products and services for the corporate market

New Markets • New Rules • New Technology™

NetDeposit's Financial Services Solutions Group delivers value to banks, credit unions, processors, and their customers by providing proven payment technologies. With multiple patents and billions of checks processed, NetDeposit's Financial Services Solutions Group helps you win new customers, grow deposits, and deliver ongoing value to your business and retail customers.

Commercial Remote Deposit Capture

Remote Deposit Capture is an established service upon which financial institutions can grow deposits and revenue to compete effectively. With commercial remote deposit capture products from NetDeposit, you can provide your business customers with a more convenient and efficient way to make deposits.

Your business customer base is diverse. With proven RDC solutions from NetDeposit, you deliver the right application to the right customer, balancing functionality with ease of use. This thoughtful approach to your customers' needs allows you to stand out from your competition in marketplace.

Offering a variety of RDC capture solutions does not require complexity in your back office, since all NetCapture™ capture applications are managed from a single, powerful central processing platform. Choose a deployment option that is right for you - in-house licensed software or our NDpro Payment Services ASP service.

The Right Service for the Right Customers

NetDeposit equips you with a variety of capture clients that are sized right and priced right for your varied commercial customer base. These include capture experiences tailored for small businesses, multiple locations, and high-volume operations with advanced data capture needs.

NetCapture Small Business – A Web-based remote deposit capture application ideal for small businesses with low deposit volumes

NetCapture Business – A full-function, Web-based remote deposit capture application suited for businesses that have a moderate check volume and want to utilize the convenience of browser-based technology

NetCapture Business Pro – A desktop RDC application designed to support businesses that receive high check volumes

NetCapture Receivables – A Web-based coupon and check capture application ideal for businesses that require automated capture and processing of accounts receivable data
