

ProviderPay™

Features

- Automate claim level reconciliation of your third-party payments (claims, payments and remittance information)
- Identify and report your outstanding, short-paid and zero-paid claims so you can take action
- Process payments and remittances from all payers via any method (check, EFT, EOB and ERA) through *ProviderPay Complete*
- Process payments and remittances from ERA-capable payers through *ProviderPay ERA*
- Provide you ready access to critical information via a secure 24/7 online portal and email reports
- Store claims and remittance information in a long-term archive
- Access to the same sophisticated tools used by large chain pharmacies
- Optionally, resolve open claims with the payers on your behalf with MyAssistant
- Optionally, process payer payments for you and deposit money directly in your bank accounts

ProviderPay™ for Independent Pharmacies

Independent pharmacies play a critical role in the communities they serve. As trusted advisors to both patients and providers, pharmacists look out for the needs of many. Today, tightening margins, compliance concerns, and competition from large chain and “big box” pharmacies create unprecedented challenges for independent pharmacies, leaving many wondering who is looking out for their best interests.

For over 10 years, NetDeposit's *ProviderPay™* service has served as the source for automated third-party payment management and reconciliation services for independent pharmacies. *ProviderPay* offers two products to meet your individual needs.

ProviderPay Complete is a full reconciliation product that captures and reconciles claims to all remittance and payment types, including EOB and ERA, check and EFT.

ProviderPay ERA is an economical alternative covering payment and reconciliation services for the majority of your payers who have the ability to process electronic remittance and payments.

With *ProviderPay*, you reduce time spent on banking activities, claims reconciliation, and payer collections so you can dedicate more time to your business and customers. Save money and time by automating your payment acceptance process.

Benefits:

- Spend less time managing and collecting third-party payments and more time caring for your customers and community
- Assure that third-party payments due to the pharmacy are received and write-offs are minimized
- Isolate payment or payer problems so they can be addressed quickly
- Manage your finances more effectively with visibility into your cash flow
- Be prepared for audits and compliance reviews
- Reduce your exposure to PHI violations
- Predictable fixed monthly fee
