

# NetCapture™

Business

## Benefits:

- Deliver sophisticated Web-based RDC technology to your business customers
- Utilize a thin client application that is easy to manage and update, meaning less administrative impact for you and your customers
- Build effective barriers to entry from competing financial institutions outside existing geographical footprints
- Expand market share and presence beyond your branch network
- Increase deposits and deliver revenue-generating products and services

Proven technologies that deliver value to banks, credit unions, processors, and their customers.

NetDeposit's Financial Services Solutions Group delivers value to banks, credit unions, processors, and their customers by providing proven payment technologies. With multiple patents and billions of checks processed, NetDeposit's Financial Services Solution Group helps you win new customers, grow deposits, and deliver ongoing value to your business customers.

## NetCapture™ Business

*NetCapture™ Business* is a Web-based RDC application suited for your business customers. It is ideal for businesses that:

- Receive checks in their offices and find it inconvenient to get to the bank
- Need to capture additional data associated with the check, such as an invoice number
- Value the convenience of the Web for deposit preparation and central reporting

*NetCapture Business* enables you to win new and expand existing corporate cash management business with remote deposit capture. Businesses with a single location or multiple locations benefit from the simple-to-use check capture process and advanced centralized reporting and accounting systems update. Additionally, business customers using RDC will have a more efficient deposit preparation process and automated collection of valuable payment data. *NetCapture Business* enables you to uniquely meet the requirements of your business customers, making your financial institution the clear choice for deposit business. Furthermore, the thin client application is easy to manage and update, meaning less administrative impact for you and your business customers.
