

# TotalTransact™

## TotalTransact enables you to:

- Accept one-time donations through ACH or credit/debit card
- Develop customized, recurring donation plans that are regular, easy to manage, and error-free
- Take donations over the phone and face-to-face in the office or at fundraising events
- Set up an online donation page easily with your look and feel
- Scan and electronically deposit checks to your bank account without leaving the office using remote deposit capture
- Save expense with an on-demand solution that costs less to acquire, operate, and maintain than self-hosted or licensed solutions
- Accept donations from checking accounts, savings accounts, and credit/debit cards
- Automatically generate confirmation emails

## Automated Payment Systems for Charitable Organizations

In today's world, handling charitable donations is more complex and sophisticated than simply receiving a check in an envelope. It's about relationships. Whether you are a large or small charitable organization; whether you accept single donations or process donations given over extended periods of time, you will benefit from employing donation automation solutions as a strategic asset.

Charitable organizations and TotalTransact™ make an ideal partnership. TotalTransact enables you to accept, initiate, process, and manage your electronic payments in a fast, convenient, and secure environment. TotalTransact is a powerful, flexible, and cost-effective payment processing service that is easy to use and administer. Now charities of any size can develop and administer automated payment programs with minimal staff time and maximum effectiveness and donor satisfaction.

## All of Your Donations in One Place

TotalTransact represents the standard for automating an entire payment process, end to end. Once a donor pledges an amount and a timetable—weeks, months or years—TotalTransact enables the creation of a customized, recurring installment schedule that will ensure all contributions are completed easily, regularly, and with little or no hassle for the donor. The result is a powerful solution that establishes an efficient cash flow process while enhancing a close working relationship with every donor.

If you are currently receiving, photocopying, and depositing paper checks, you'll enjoy the convenience of remote deposit capture. With RDC, you scan incoming donor checks and securely submit an electronic deposit to your bank account. You can store check images in automatically created PDF reports for future reference.

## Flexible, Configurable, Cost-Effective & Comprehensive

TotalTransact integrates a number of features into a fully operational payment processing system that enables managers and staff to administer all forms of contribution processing in a format that is easy to use, flexible, and secure. With TotalTransact, you can start small, using only the essential modules, then grow to serve your expanding donor base without needing to change systems.

### Features include:

- Compatibility with magnetic swipe card reader
- Virtual terminal
- Remote deposit capture
- Online donation page
- Reports
