eCheck

TotalTransact eCheck provides easy ways to save your company time and money while improving the accuracy and efficiency of your receivables activities. *TotalTransact eCheck* provides several options for sending and receiving payments from checking and savings accounts, including:

- Online payments
- Recurring payments
- Virtual Terminal
- Web Services for enabling payment acceptance within third-party software solutions
- Sending batches of payments at one time

Card

Accepting credit cards is essential to doing business today. With *TotalTransact Card*, you have flexible, powerful options for card payments. Additionally, card transactional reporting is included in a single, unified reporting engine with your other payments. Options include:

- Swipe card reader support for card-present transactions
- Online payments
- Recurring card payments
- Virtual Terminal
- TotalTransact Web Services for enabling payment acceptance within third-party software solutions

RDC

TotalTransact RDC is a revolutionary service that enables your business to scan checks at the office and transmit the check images via the Internet for processing and deposit to your bank account at any bank. *TotalTransact RDC* offers easy-to-use, innovative solutions eliminate costly and inconvenient trips to the bank and allows your business to easily prepare and deposit checks 24 hours a day, 7 days a week.

- Options for high- and low-volume capture scenarios with *NetCapture Small Business* and *NetCapture Business* applications
- Easy-to-use system for creating electronic deposits
- Deposit into one or more bank accounts
- Online reports of previously submitted deposits, including ability to view images, data, status, and retrieve exports for accounting systems
- Automatic capture of check amounts using OCR technology
- Image analysis to ensure image quality
